Hi Co-authors,

Attached is the latest version of "A method for quantitative mapping of thick oil spills using imaging spectroscopy." This version of our USGS openfile report is going into USGS peer review and I assume you will be submitting it for review at your own institutions. Please keep the contents of this openfile confidential as they are preliminary not having been through the complete internal review process. And please send your revisions to Roger with a copy to me as a minimum. He and I look forward to your comments and suggestions.

Thanks,

1002290441-22572-18558-164-230

Gregg Swayze
