Subject: flow rate estimate

Hi,

2998038857-42815-19407-149-225

I'm a BloombergNews reporter writing about the oil spill, and I believe you're leading the team of scientists that works on the new flow rate estimate, or, as Admiral Thad Allen called it today, an ``oil budget''.

would you have a moment for a brief interview on this matter, for BloombergNews?

I can be reached at 713.651.4608, or [REDACTED] .
