Subject: Final Loop Current OFR

Judy and Suzette,

I just found that NASA has not finished their internal review. Hope to have that soon.

Vic

Judy and Suzette,

The OFR on rapid assessment of thick oil which indicates thick oil in the Gulf Loop Current is ready for Director's approval. I believe that Elly Brouwers has guided it all the way up to the point of final approval and release. It should be ready to move on to the next level.
