

Metrics That Matter

Did you just complete a class that is in the DOI LEARN catalog? After every completed class (on-line or classroom type) you will get an e-mail from Knowledge Advisors / CEB Global within a week. Just follow the instructions provided in the email to evaluate your class. The evaluation will take 4-5 minutes to complete.

Why Bother to Evaluate Your Class?

- 1) It is the only way we have of figuring out what worked and what did not and it helps the instructors/course developers improve the class.
- 2) Once you complete your evaluation, your supervisor will have a chance to provide input a few months later on whether that training had any impact on the job or not.
- 3) The survey/evaluation is completely anonymous. Any comments you provide will be provided to the Instructor(s) anonymously.

You will get a few auto-generated email reminders until you complete the evaluation. You have 30-days from the last class date to take it before it expires.
