Members of the ELT are requested to “open” the Leadership Intensive class. Talking points will be provided that offer the ELT member suggestions for topics that will synchronize with the concepts of the class and will inspire the participants to explore the benefits of good leadership, not only for them but for the USGS as well. In addition, the ELT members are requested to “close” the class. The “closing” ceremony will consist of the ELT member passing out certificates of course completion and offering words of encouragement to inspire participants to take the leadership concepts learned and put them into practice in their own work at the USGS. Additionally, Day 2 of the Leadership Intensive course offers the optional opportunity to have lunch with the participants where ELT members can meet and talk with participants in an informal setting. Please refer to the “*USGS Executive Leadership Team Expectations*” section of this document for details on these events.
