

POSITION DESCRIPTION (Please Read Instructions on the back)

1. Agency Position No
S030

2. Reason for Submission
NEW

3. Service

4. Employing Office Location

5. Duty Station

6. OPM Certification No

Explanation

7. Fair Labor Standards Act
Non-Exempt

8. Financial Statements Required

9. Subject to IA Action
Yes

10. Position Status
Competitive

11. Position is
NON-SUPERVISORY

12. Sensitivity
1 - Nonsensitive/Low

13. Competitive Level Code

14. Agency Use

15. Drug Test Required
NO

16. ADP Status
NO

| 17. Classified/Graded by | Official Title of Position | Pay Plan | Occupational Code | Grade | Initials | Date |
|---|----------------------------|----------|-------------------|-------|----------|------------|
| a. Office of Personnel Management | | | | | | |
| b. Department, Agency or Establishment | | | | | | |
| c. Second Level Review | Hydrologist | GS | 1315 (31) | 7 | L . P | 01/01/2002 |
| d. First Level Review | | | | | | |
| e. Recommended by Supervisor or Initiating Office | | | | | | |

18. Organizational Title of Position (if different from official title)

19. Name of Employee (if vacant, specify)
Brad Gardner

20. Department, Agency or Establishment
U.S. DEPT. OF THE INTERIOR

c. Third Subdivision

a. First Subdivision
U.S. GEOLOGICAL SURVEY

d. Fourth Subdivision

b. Second Subdivision

e. Fifth Subdivision

21. Employee Review- This is an accurate description of the major duties and responsibilities of my position.

Signature of Employee (optional)

Supervisory Certification. I certify that this is an accurate statement of the major duties and responsibilities of this position and its organizational relationships, and that the position is necessary to carry out Government functions for which I am responsible. This certification is made with the knowledge that this information is to be used for statutory purposes relating to appointment and payment of public funds, and that false or misleading statements may constitute violations of such statutes or their implementing regulations.

a. Name and Title of Supervisor
Mark Sogge, Acting Deputy Director, USGS

b. Typed Name and Title of Higher-Level Supervisor or Manager (optional)

Signature Date
/s/ Mark Sogge 07/30/2015

Signature Date

23. Classification/Job Grading Certification
I certify that this position has been classified/graded as required by Title 5, U.S. Code, in conformance with standards published by the U.S. Office of Personnel Management or, if no published standards apply directly, consistently with the most applicable published standards.

24. Position Classification Standards Used in Classifying/Grading Position
GS-1300P, JFS for Prof Phy Sci Work

Typed Name and Title of Official Taking Action
Lorilee Penn Human Resources Specialist

Information for Employees
The standards and information on their application, are available in the personnel office. The classification of the position may be reviewed and corrected by the agency or the U.S Office of Personnel Management. Information on classification/job grading appeals, and complaints on exemption from FLSA, is available from the personnel office or the U.S Office of Personnel Management.

Signature Date
Lorilee Penn /s/ 01/01/2002

| 25. Position Review | Initials | Date |
|------------------------|----------|------|----------|------|----------|------|----------|------|----------|------|
| a. Employee (Optional) | | | | | | | | | | |
| b. Supervisor | | | | | | | | | | |
| c. Classifier | | | | | | | | | | |

26. Remarks

27. Description of Major Duties and Responsibilities (See Attached)

Major Duties

As an advanced level trainee Hydrologist, the incumbent is assigned duties and provided training that contribute to the continuing professional development in the area of Hydrology and other related sciences. Typical assignments may include:

- Assists higher level hydrologists in conducting hydrologic studies by collecting hydrologic data in the field, recording, analyzing, and interpreting hydrologic data, researching records, and compiling statistical data, and preparing and editing portions of the hydrologic report.
- Collects hydrologic data using a variety of methods and equipment, such as:
 1. Measures the discharge of streams having a variety of depth and flow conditions;
 2. Collects and analyzes geologic samples to delineate and correlate aquifer systems and describe water-bearing characteristics;
 3. Measures water levels in observation wells, collects pumpage records and other geohydrologic data; and,
 4. Collects water samples for the analysis of sediment concentration or chemical quality.
- Writes portions of interpretive reports of hydrologic studies and prepares hydrologic information in the form of maps, charts, or graphs for inclusion in reports.
- Computes, analyzes and interprets records of streamflow, water levels, pumpage, sediment quantities, or biological and chemical quality to assist in the scientific evaluation of hydrologic phenomena.
- Operates a government vehicle as an incidental driver.

Factor Statements

FACTORS 1 - KNOWLEDGE REQUIRED BY THE POSITION (Level 1-6, 950 points)

- Knowledge of the theories, principles, practices, and techniques of hydrology, hydraulics, geology, and engineering as would typically be obtained through a Bachelor's degree to aid in the interpretation of scientific and technical data.
- Knowledge of USGS principles, methods, and practices in order to collect, adjust, correlate, and interpret hydrologic data by USGS standards.
- Skill in the use of hydrologic-data collection and analysis equipment in the field and in the office.
- Basic knowledge of computer applications for the compilation, analysis, representation, and evaluation of hydrologic information.

FACTOR 2 - SUPERVISORY CONTROLS (Level 2-2, 125 points)

Supervisor assigns work in detail and fully reviews work in progress. This review is typically

maintained through spot checks to monitor progress and conformance to instructions. Recurring work assignments covered by explicit procedures and guidelines are performed independently. Completed work is reviewed for compliance with instructions and to assure the quality of the work.

FACTOR 3 - GUIDELINES (Level 3-2, 125 points)

USGS policies, regulations, and standard practices or instructions (such as TWRI Handbooks, USGS Manuals) provide guidelines to be followed. Supervisor may indicate source of instruction or available guidelines but incumbent will generally determine the appropriate guides to use. Deviations from guides or incomplete instructions are referred to the supervisor. However, in the field, standard guides or practices may be modified or adapted to meet unusual work situations.

FACTOR 4 - COMPLEXITY (Level 4-2, 75 points)

Work assignments contribute to further development of professional hydrologic knowledges and experiences. Work assignments may require incorporation of a variety of standard procedures and methods to complete a series of sequential and specific phases of a broad hydrologic study.

FACTOR 5 - SCOPE AND EFFECT (Level 5-2, 75 points)

The scope of projects at this level typically provides unbiased, basic hydrologic information that meets the scientific standards of the USGS. The effect of this work contributes to the basic understanding of hydrologic systems that serves, in part, as a basis for responsible and beneficial management of water resources by local, state, or other Federal authorities.

FACTOR 6 - PERSONAL CONTACTS (Level 6-2, 25 points)

Personal contacts are normally with other hydrologists or technicians in the organization, but occasionally, as directed by the supervisor or Project Chief, with cooperators or general public.

FACTOR 7 - PURPOSE OF CONTACTS (Level 7-1, 20 points)

Purpose of contacts within the organization is to gain or exchange information. Contacts external to the organization are limited to obtaining or exchanging information of a factual nature. Occasional contacts with the general public are to accomplish data collection, to communicate with observers, or to talk with property owners.

FACTOR 8 - PHYSICAL DEMANDS (Level 8-2, 20 points)

The position requires moderate periods of standing and sitting while in the office. While in the field, considerable walking, lifting, bending, climbing, and stream wading is necessary to collect data.

FACTOR 9 - WORK ENVIRONMENT (Level 9-2, 20 points)

Office conditions are normal; field conditions may include extreme heat or cold, rain or snow, and hazardous conditions such as ice or flooding.

TOTAL POINTS - 1435

GRADE CONVERSION - GS-07
