Anne LeHuray, Ph.D.
Executive Director
Pavement Coatings Technology Council
2308 Mount Vernon Avenue, Suite 134
Alexandria, Virginia 22301
alehuray@pavementcouncil.org

Dear Dr. LeHuray:

The U.S. Geological Survey (USGS) received your letter dated August 4, 2014 regarding an appeal of the final USGS response (dated July 18, 2014) to the Pavement Coatings Technology Council's request for correction of information (dated September 18, 2013), submitted under the USGS Information Quality Guidelines. Documentation related to the appeal, as well as the original request, and links to the cited USGS publications, may be viewed on our Web page at http://www.usgs.gov/info_qual/cancer_risk_coal-tar-sealed_pavement.html.

This is to inform that we need to extend the time for responding to the appeal request beyond what was indicated in our February 4, 2016 letter. The draft appeal response is being prepared for Bureau, Department of the Interior, and Office of Management and Budget review. We anticipate sending you a response to the appeal within 90 days, but will let you know if additional time beyond this is needed.

Thank you for your patience.

Sincerely,

Alan D. Thornhill
Director
USGS Office of Science Quality and Integrity
