

**HAUC Meeting
July 20, 2015**

(Attendees: Chad Wagner, Tony Gotvald, Jeanne Robbins, Andrew Robinson, Greg Donley, Philip Habermehl, Tim Lanier, Duke Erbland, Chris Henry, Eric Sadorf, John Mazurek)

1. Phil presented Beta Stage-Area check worksheet to the group. He will make some minor adjustments; add some instructions to the first tab and provide to the group for final review before release to the SAWSC.
2. Phil presented SC version of IV Rating worksheets; 1 for the rating development and 1 for 1-min data computation. SC have been using it for about 1-year now and no problems have been experienced, easy to use. We would need to add additional logger format options in the 1-min data computation spreadsheet for GA and NC situations/equipment.
3. Phil will update README file and add additional 5 cells for his IV Spreadsheet and send to the group. Index Velocity users within the HAUC in GA and NC will review the SC worksheets and have comments ready for the August HAUC meeting.

Next Meeting – Monday, August 24th @ 9am
